# QUADRA TRAINING PASSPORT

We understand that it can be difficult in the fast-paced, ever-changing world to make time for personal development.

That is why we have introduced the Quadra Training Passport to give you more freedom and flexibility in how you receive training.

The Training Passport gives you;

- Access to any of our scheduled training courses throughout the year (we run over 125 courses during the year)
- Opportunity to build your own unique development plan, selecting the courses that would be most useful to you
- The foundations of a great training package for a new starter or continuous professional development plan
- Cost-effective solution to company training requirements and personal development plans.

## Benefits of a Training Passport

Access to all Scheduled Training Courses for 12 months

Minimal burden on purchasing teams

Construct a unique development plan for you or your team

Perfect for CPD or new starters

"The Quadra Training Passport is a great option for us; it allows me to make the most of the wide range of training courses available, whilst enhancing my design skills."

Chris Wright | BID Group Ltd.
